The enclosed information has been written by professional events organisers Skyline who receive a flat rate per jumper for organising the jumps for us. If you have any questions relating to your jump, including how to book and pay, please ring them directly on 0870 345 8000.

We very much hope you will take this opportunity of a lifetime and decide to jump and raise money for Whizz-Kidz. We have 391 children on our waiting list and we hope to raise 1.5m in 2006 to provide each of them with the life changing equipment they so desperately need. Any funds you raise through this jump will go directly to making this happen.

Good luck with raising your sponsorship. Please call the fundraising hotline (0845 056 0823) if you need any help with hitting your target.

Yours sincerely,

10,000 ft Freefall Parachute Jump!

What's it like?

Imagine standing at the edge of an open doorway in an aircraft flying at 10,000 feet - the noise of the engines and the wind ringing in your ears with only the outline of distant fields below. Now imagine leaning forward out of that doorway and letting go - falling forward into the clouds, diving down through the air as you start freefalling at over 120mph! Then imagine the peace and quiet as the canopy opens, the steering toggles come down either side of you and you begin a tranquil parachute descent from a mile up in the air, steering yourself back down to the centre of the drop zone below. Imagine being able to do this for FREE whilst harnessed to a professional freefall parachute instructor and at the same time being able to help a worthwhile charity! Stop imagining, it's real and it's happening all the time and you can be part of it...

What does the jump involve?

Technically the jump is called a 'Tandem Skydive'. It is a Skydive because you will be freefalling through the air (without the parachute deployed) for several thousand feet; it is in Tandem because you will be harnessed to a professional parachute instructor at all times throughout the descent (see front photo). This is the only way you can jump from such an altitude without spending thousands of pounds becoming a freefall parachutist. This is literally the chance of a lifetime!

This jump is also much less demanding than the traditional 'static line' jump as the jump and training are completed in one day and your instructor will be in control of your landing.

Points to remember:

- Jump and training completed in one day
- Harnessed to an experienced parachute instructor at all times
- Jump from at least 10,000 feet - just like the professionals
- Freefall down to 5,000 feet - falling through the air at 120 mph!
- Ride the parachute down to the ground - we teach you how to steer onto the drop zone
- Landing controlled by your instructor
- Certificate to prove that you have completed a 'two-mile high' Tandem Skydive!

What must I do to qualify for a free jump?

All you have to do is raise £395 (or more!) for Whizz-kidz by asking your friends and colleagues to sponsor you, using our specially designed sponsorship forms which you will find at the back of this information pack. Please do not be put off by this amount - if you ask everybody you know to sponsor you, you will find you can quite easily raise the minimum £395 sponsorship and remember, every penny you raise over the minimum will be further contributing to Whizz-kidz and giving **you** the chance to make an exhilarating freefall parachute jump for FREE!

What do I do next?

Read the pages entitled 'Important Information' and 'Paying Your Sponsorship Money' and then simply choose a date for your jump and complete the enclosed reservation form. After that all you have to do is make an exhilarating Tandem Skydive from 10,000 feet for FREE!

Experience the exhilaration of a 10,000ft Tandem Skydive!

Static Line Parachute Jump

What's involved?

Unlike a tandem jump you get to jump solo from up to 3,000 feet having had a full day's instruction from fully qualified instructors. What's more this is an ideal way to find out if you want to progress in the sport of parachuting and of course raise valuable funds for Whizz-kidz at the same time...

What does the jump involve?

This jump is called a static line jump because from the moment you step into the aircraft you will be securely attached to a 'static line' which is designed to automatically open your parachute for you as you exit the aircraft. The jump is in two parts: On the Saturday you will undergo a minimum of six hours training on all aspects of the jump - the equipment used, how to exit the aircraft, how to check your canopy, reserve drills and most importantly how to control your landing. On the Sunday you will perform the jump solo from up to 3,000 feet using either a new square parachute canopy or a traditional round one. If the weather prevents you from jumping your training is valid for at least two months giving you plenty of time to return to the centre to complete your jump. Completion of this training course is the first step to becoming a fully qualified skydiver and all students receive a British Parachute Association approved certificate.

Static Line Jump: Points to remember:

- Thorough training on the Saturday for your jump on the Sunday
- Choose from the traditional round canopy or the newer square canopy which allows you to steer!
- Jump solo from up to 3,000 feet closely supervised by professional parachute instructors
- Securely attached to a 'static line' designed to automatically open your parachute for you
- The first step to becoming a qualified skydiver if you use the latest square parachute design
- Official certificate to prove that you have completed a solo static line jump and training course

All you have to do to receive your static line jump for free is to raise a minimum of £300 or £370 (see following page) for Whizz-kidz. To book your static line jump simply read the enclosed pages entitled 'Important Information' and 'Paying Your Sponsorship Money' and complete the enclosed reservation form.

Accelerated Freefall – Solo Skydive!

What's involved?

If you're really adventurous why not take the first part of a professional skydivers course – also known as Accelerated Freefall (AFF Level 1 for short). You'll have a full day's ground training from two qualified instructors before you skydive solo from 10,000 feet – just like the real thing!!!

What does the jump involve?

Learning to skydive solo is a big challenge and you will start with a full day's training including practical and classroom sessions covering all areas of making a solo skydive from 10,000 feet! On the second day, once your instructors are satisfied that you are ready, you will climb aboard the aircraft to be taken to your jump altitude. Whilst you will skydive solo (ie with nobody attached to you) your two instructors will jump with you and be by your side until approximately 5,000 feet when you pull your parachute canopy. From that point you will steer your parachute on your own but will be guided to the dropzone by ground control who will talk you down all the way. All in all Accelerated Freefall is as close as you can get to the real thing!!

PAYING YOUR SPONSORSHIP MONEY

The following sponsorship system makes it easy for you to take part and ensures that you do not have to pay all of your sponsorship money in advance. At all airfields you must pay for your jump and training on the day but your money to charity is not due until four weeks after you have completed your jump. Remember, as long as you raise the minimum sponsorship level for your jump (£395 for a tandem, £370 for a static line *square*, £300 for a static line *round* and £535 for AFF) you can recover both the cost of the booking deposit and the jump from your sponsorship money - which means you get to jump for FREE!

BOOKING DEPOSIT

Whichever airfield you jump at you must provide the standard £80 booking deposit which must be sent in advance but can be taken out of the minimum sponsorship that you raise.

TANDEM SKYDIVE

Payment for your jump will be required on the day which will be approximately £180. You must also provide the remaining sponsorship money due to the charity but this can be postdated by up to four weeks. Please note that any personal cheques must be supported by a valid cheque guarantee card. This postdated method of payment makes it as easy as possible for you, allowing you plenty of time to collect your sponsorship money after the jump before it is due to the charity.

STATIC LINE (both *Square* and *Round*) and AFF (Accelerated Freefall)

All airfields require payment on the day of your training (Friday/Saturday) which will be approximately £160 for a *square* jump, £95 for a *round* and £300 for an AFF. You must also provide the remaining sponsorship money due to the charity on the day of training but this can be postdated by up to four weeks. Please note that the payment to the airfield is for your training and is totally non-refundable even if you do not jump for whatever reason. However your money to the charity will only fall due four weeks after you have actually completed your jump – any personal cheques for postdated sponsorship money must be supported by a valid cheque guarantee card. This postdated method of payment makes it as easy as possible for you, allowing you plenty of time to collect your sponsorship money after the jump before it is due to the charity.

Precise instructions on how to operate the above payment system (including how much to pay the airfield on the day and how much sponsorship money is due to the charity) will be sent to you upon receipt of your reservation form and booking deposit.

NOTE

All jumps require you to send in your reservation form and booking deposit before we can start organising your jump for you - please do this as soon as possible so that we can give you the date of your choice and so that you can start preparing yourself for what has often been described as 'the experience of a lifetime'!

Reserve your place today!
