

Wheelchair Skills Training Calendar 2011

Whizz-Kidz Wheelchair Skills Training is a unique training opportunity for children to get the most from their wheelchair, developing their confidence and independence in a safe setting.

2-4 volunteers are required at each scheme to act as a 'buddy' and support the children and young people to make sure they have a great experience and learn as much as they can from the scheme.

"The Wheelchair Skills training are a brilliant way of getting involved and learning about disability. I thoroughly enjoyed it and the main satisfaction was from seeing the participants open up and learn so much simply from playing. I've always left every training session with a smile on my face and the satisfaction of having made a real difference in somebody's life that day" Aran, volunteer
